STATEMENT OF CIRCUMSTANCES

Below is the Statement of Circumstances in which Kyvalley Dairy Group would enter into a Milk Supply Agreement. This is a requirement of the Dairy Industry Code clause 12(2).

Kyvalley Dairy Group proudly supplies fresh dairy products to customers all over Australia and into Asia. We are an Australian owned family business, and our suppliers, existing and new, are part of our family. As always, we remain loyal to our current suppliers, and they will be given preference in meeting our target milk requirement for Northern Victoria for the 2026/27 season.

In respect to our desired volumes for the 2026/27 supply year, we are looking to match supplier's volumes closely with customer demand. We are not seeking additional A2 milk volume.

Kyvalley Dairy Group require the supplier to:

- hold a current dairy licence.
- comply with a Dairy Food Safety Program.
- meet our minimum milk collection of 1500L at any one time (less than 48 hours old).
- have sufficient vat capacity to be logistically efficient.
- have 25m B-Double tanker access.
- be located in our collection zone (refer to Schedule 1 in Milk Supply Agreement).

Kyvalley Dairy Group may, at any time, decline to enter into any new milk supply agreements once we have secured sufficient milk supply to service our customers.

Details of our milk price model and terms are set out in the Kyvalley Milk Supply Agreement Northern Victoria A2 and Supplier Handbook.

For all enquiries regarding milk supply contact Nicole Wells, Milk Supply Manager, nicole.wells@kvdg.com.au or Mike Leijen, General Manager of Milk Supply, mike.leijen@kvdg.com.au. Alternatively, phone our office on 03 5853 2666, select 1 for farm milk supply.

For full description and worked examples of each of the components of the Kyvalley milk payment model please refer to the Kyvalley Dairy Group Supplier Handbook.

3.1 General re Minimum Milk Price Policy

- 3.1.1 The amount you receive for your milk from the Minimum Milk Price will vary month to month throughout the Supply Year depending upon your particular milk supply curve, milk quality and butterfat/protein percentage, your volume, your vat storage capacity and whether you are an A2 Approved Supplier for the purposes of supplying A2 Milk. Please refer to the Kyvalley Supplier Handbook for further explanation and worked examples.
- 3.1.2 Kyvalley Dairy Group will provide an income estimate to all suppliers prior to the start of the payment year or prior to the commencement of supply. Further income estimates will be provided to suppliers upon request.
- 3.1.3 Your Forecast Supply will also be used for the purpose of estimating your likely Total Flat Supply and any Flat Supply Bonus monthly pre-payments that will apply under Kyvalley Dairy Group's Minimum Milk Price.
- 3.1.4 Milk Pricing is made up of a Base Milk price (cents/litre) plus adjustments up and down for volume, seasonality, components and quality.

3.2 Milk Price Justification

In setting milk prices for 2026/27 milk year, Kyvalley Dairy Group does its own assessment using the available market intelligence and customer feedback along with global trends for dairy ingredients and fresh milk.

Other considerations that play a part in price setting is our ability to recover cost increases in the domestic market and the impact that these have on our business. Our business is continually researching options for export and additional markets which it can then use to add value and pay a competitive milk price.

Kyvalley has a flat base price and has a seasonal impact payment for five months of the year which will vary from month to month. On top of this we pay additional value for flatter milk.

Exclusive contracts allow Kyvalley Dairy Group increased certainty around milk supply and this is what drives the additional value over a Non-Exclusive contract. This allows Kyvalley to give more certainty to its customers year-round.

3.3 A2 Milk Supply

- 3.3.1 If you are an A2 Approved Supplier and eligible to supply A2 Milk to Kyvalley, an additional bonus of 3.5c/litre will be payable for all A2 Milk supplied throughout the Supply Year.

NOTE – Kyvalley Dairy Group require the Supplier to be certified by the a2 Milk Company (Australia) Pty Ltd to be eligible to be an A2 Approved Supplier.

3.4 Flat Supply Bonus

- 3.4.1 As a fresh market milk processor, customer demand for milk is relatively flat and unseasonal. Kyvalley Dairy Group encourages the Supplier to move towards flat all year-round Milk supply and:

- 3.4.2 Suppliers who are able to supply milk with a supply ratio of lower than 1:1 (Highest monthly daily average volume August-December divided by lowest monthly daily average volume) will receive a bonus of 8c/litre.
- 3.4.3 Suppliers who are able to supply milk with a volume ratio between 1.8:1 and 1:1 will receive a graduated bonus added to the base price for the season.
- 3.4.4 Suppliers with a volume ratio greater than 1.8:1 will not be entitled to a Flat Supply Bonus.

Refer to the Kyvalley Dairy Group Supplier Handbook for a detailed description (including a worked example) of how the Flat Supply Bonus is calculated.

3.3 Volume Accuracy

- 3.3.1 Suppliers will be required to forecast a monthly milk supply at the beginning and the midpoint of each 12-month period (Season). For each 12-month period the supplier is required to provide a forecast of monthly supply volumes for the July to June supply period. The forecast volume will be used to calculate the monthly payment of the Flat Supply Bonus.
 - a. In December of each year each supplier has the option to modify this forecast for the back half period January – June and this revised forecast will be used to calculate monthly Flat Supply Bonus payments for the remainder of the year.
 - b. It is important that suppliers discuss with us any changes to their business which may impact on their Flat Supply Bonus.

4. Statutory Levies

Dairy Australia and Dairy Food Safety Victoria or NSW Food Authority – Dairy levies shall be deducted from the Minimum Milk Price described in clause 3 and forwarded to the relevant authorities.

5. Milk Payment Basis
